

HOW TO UPDATE YOUR PASSPORT DETAILS IN YOUR UKVI ACCOUNT (INCLUDING FOR EUSS)

Your eVisa is an online record of your immigration status and the conditions for you to stay in the UK. Your **online UKVI account** allows you to login to access your **eVisa or EUSS**, share your immigration status and keep your details up to date.

If your travel document details are not up to date in your UKVI account, you may experience delays when you travel.

Scan here to update your details.

To update your passport details in your UKVI account, you will need:

- A smartphone or device with **internet connection**
- A valid **passport** for UK travel
- Access to the **email** account or **mobile phone number** you use to sign into your UKVI account
- Your **date of birth**

Passenger should **move out of the check in queue** to avoid disruption

1. Sign into your UKVI account
Using your identity document number and date of birth and complete security checks.

If your name, DOB or nationality has changed, you can still use *Update My Details*, but we do not recommend doing so at the airport

2. Confirm your personal details have not changed
You still have the same Name, DOB and Nationality

Lay your passport on a **flat surface** in an **evenly-lit** environment.

3. Take a photo of your new passport page
Open your passport to the biographic details page and hold your phone over your passport

4. Check information
Check the details you have provided are correct before pressing 'submit'.

5. Wait for confirmation
You will be informed via email once your request has been submitted

Wait **5 minutes** before reattempting check-in

6. Return to the check-in agent
The agent will complete your check-in process
